## RE228 Seal Range

### Range description

The RE228 Seal Range is a comprehensive range of polypropylene tubs and lids, suitable for a variety of food (e.g. ready meals, spreadable products) and non-food applications.

The polypropylene trays and lids can be used for microwave reheating.

It is available in a sealable version and the standard is also available in a black or white colour. It can be delivered in one, two or three compartments per tray for a division of your products.

The high precision quality of forming satisfies the demand for high efficiency on filling lines, while material and decoration options allow for differentiation and enhanced shelf impact.

### Features

- Sealable
- Tray standard available in PPure (ultra-transparent polypropylene mono), black and white colour
- Also available in coloured (upon demand), barrier (PP/EVOH/PP)
- High quality decoration alternatives: Labelling (sides and/or bottom), embossing
- Suitable for direct food contact

Contact us now for product samples, commercial and technical support - We are happy to assist with your filling trials and can provide portable sealing equipment.
